1942 WILLY'S MB WWII JEEP WITH OPTIONAL CARGO TRAILER

Located in Buena Vista, Colorado

JEEP

\$26,000

CARGO TRAILER

\$7,500

Jeep price reduced to what I paid. Can't go lower. Priced to sell! A Great Opportunity!

I purchased this jeep from 2 Vietnam War Vets who spent two years building it. They searched the country finding parts. They totally rebuilt- Engine, Transmission, Transfer Case & Both Axles. All new- Gas Tank, Canvas, Side Shovel and Ax, and Gauges. They upgraded to a 12-volt electrical system. 4-cylinder engine. New battery installed. The Jeep Odometer reads 333 miles.

I have only trailered the jeep to some WWII reenactments where it's a display jeep. I have not used it in a reenactment. I enjoyed teaching kids about WWII. I did drive it around my hometown a couple of times. I have only put around 150 miles on it, mainly because I started moving across the country.

I house and move the jeep in an enclosed 20' cargo trailer. I am also selling it. Would prefer to include it with the jeep but will sell the jeep separately. I bought the trailer new. Added some options. I have only put 3,294 miles on it. I paid \$13,600 new; it is reduced because I turned a corner too sharply, delivering furniture to my daughter, and a bush scratched one side. I'm asking only \$7,500.

Many WWII Jeeps have themes. I chose to make mine a Supply Jeep. I found WWII Wooden Crate reproductions out of NC. I chose this theme because I can remove the crates from the back seats and take friends for a ride. Jeep Awarded "Best 1940's Restored" by popular vote at the recent Arkansas Valley Car Club Car Show.
